TITLES

A New Modeling Framework for Medium-Term Energy-Economy Analysis in Europe, by Pantelis Capros, Pavlos Karadeloglou, Gregory Mentzas, and Pierre Valette, 4, 1-27.
Alternate Energy Sources for the Developing World's Domestic

Use: A Case Study of Nigerian Households' Fuel use Patterns and Preferences, by Edward I. Onyebushi, 3, 121-138.
An Analysis of the U.S. Department of Energy's Civilian R&D Budget, by Ronald J. Sutherland, 1, 35-54.
An Econometric Analysis of Energy Financing, by John B. Geurard Jr., and Stephen G. Buell, 2, 47-68.
Anticipating Air Conditioning's Impact on the World's Electricity Producers, by Clinton J. Andrews, 3, 107-120.
Comment on "Macroeconomic Impacts of Energy Shocks," the Energy Modeling Forum Comparison of Models, by Harry D. Saunders, 4, 176-187.
Competitive Bidding in Electricity Markets: A Survey, by Richard P. Rozek, 4, 117-138.
Competitive Speculative Storage and the Cost of Refinery Product Supply, by Mark Newton Lowry, 2, 187-194.
Deriving Electricity Demand Elasticities from a Simulation Model, by M. F. Morss and J. L. Small, 3, 51-76.
Electricity Exports and Hydro-Quebec's 1986-2000 Development Plan, by Danny Belanger and Jean-Thomas Bernard, 1, 139-148.
End-Use R&D: Technology Development Strategy for an Integrated Market, by Clark W. Gellings and Jerome P. Harper, 3, 19-34.
Energy and Growth: Beyond the Myths and Myopia, by R. K. Pachauri, 1, 1-20.
Energy Economists in the 21st Century, by Pierre Desprairies, 1, 21-28.
Energy End-Use Structure in an Urban Society: The Case of Singapore, by B. W. Ang. 1, 127-138.
Energy Realities for the Third Millenium, by Harrison H. Schmitt, 4, i-iv.
Energy Savings from More Efficient Appliances: A Rejoinder, by J. Daniel Khazzoom, 1, 157-166.
Energy - The Challenges and Opportunities Before the Developing Countries, by Prem Shankar Jha. 1, 29-34.
Estimating the Cost of Switching Rights on Natural Gas Pipelines, by Frank C. Graves, James A. Read, Jr., and Paul R. Carpenter, 4, 59-81.
Failure in the Oil Patch: An Examination of the Production and Oil Field Service Industries, by Harlan D. Platt and Marjorie A. Platt, 3, 35-50.
Fuelwood Use in Urban Areas: A Case of Raipur, India, by M. Macauley, M. Naimudden, P. C. Agarwal, and J. Dunkerley, 3, 157-180.
Gasoline, Diesel and Motorfuel Demand in Taiwan, by Christopher Garbacz, 2, 153-164.

Is American Energy Politics Ideological?, by Eric M. Uslaner, 1, 55-76.
It's Time to Think About Energy Policy Again, by Richard Gephardt, 1, i-iii.
Load Shifting Under Voluntary Residential Time-of-Use Rates, by Douglas W. Caves, Joseph A. Herriges, and Kathleen A. Kuester, 4, 83-99.
Long-Term Contracts for Crude Oil Imports into Costa Rica: A General Equilibrium Analysis, by Christian Dufournaud, Carlos Ruiz Guiterrez, Lodewijz Berlage and Peter P. Rogers, 1, 119-126.
Markets for Natural Gas in Developing Countries, by Christopher Hurst, 3, 91-107.
Mideast Governments and the Oil Price Prospect, by M. A. Adelman, 2, 15-24.
Modeling Energy Demand and Socio-Economic Development of Taiwan, by Gwo-Hshiung Tzeng, 2, 133-152.
Noisy Data and Uncertain Coefficients: A Comment, by John H. Herbert, 1, 167-170.
Noisy Data and Uncertain Coefficients: A Reply, by Soroosh Soroooshian, Lov Kher, and F. P. Sioshansi, 1, 171-174.
Oil Products in Latin America; The Politics of Energy Pricing, by Thomas Sterner, 2, 25-46.
On Economic Policy Responses to Disruptions: A Reply to Harry Saunders, by Bert G. Hickman, Hilliard G. Huntington, and James L. Sweeney, 4, 189-197.
On Regulation, Deregulation, and Economics, by Sharon B. Megdal, 3, 181-190.
OPEC's Energy Policy, by Fadhil J. Al-Chalabi, 2, 7-14.
Optimal Structure of the Nigerian Energy Supply Mix, by AnthonyAdegbulugbe, Felix Dayo, and Thomas Gurtler, 2, 165-176.
Output and Energy: An International Analysis, by John Moroney, 3, 1-18.
Pareto Dominance Through Self-Selecting Tariffs: The Case of TOU Electricity Rates for Agricultural Customers, by Kenneth E. Train and Nate Toyama, 1, 91-110.
Price Elasticities of Natural Gas Demand in France and West Germany, by Javier Estrada and Ole Fugleberg, 3, 77-90.
Principles of Petroleum - Then and Now, by Paul J. Frankel, 2, 1-6.
Reserves and Reserve Production Ratios in Imperfect Markets, by Keith C. Brown, 2, 177-186.
Technological Innovation and a Changing Energy Mix - A Parametric and Flexible Approach to Modeling Ontario Manufacturing, by Dean C. Mountain, Bill P. Stipdonk, and Cathy J. Warren, 4, 155-174.
The Demand for Natural Gas: A Survey of Price and Income

Elasticities, by Mohammed A. Al-Sahlawi, 1, 77-90.
The Economics of Strategic Choice: U. S. Uranium Enrichment in the World Market: A Comment by George F. Combs, J., 1, 175-178.
The Effect of Changes in the Percentage Depletion Allowance on Oil Firm Stock Prices, by Andrew B. Lyon, 4, 101-116.
The Effect of Energy Aggregation on Energy Elasticities: Some Evidence from U. S. Manufacturing Data, by Sang V. Nguyen and Stephen H. Andrews, 1, 149-156.
The Incidence of Welfare Losses Due to Appliance Efficiency Standards, by Mark F. Morss, 1, 111-118.
The NERC Fan in Retrospect and Lessons for the Future, by Charles R. Nelson, Stephen C. Peck, and Robert G. Uhler, 2, 91-108.
The Perverse Effects of a Variable Oil Import Fee, by David R. Henderson, 4, 139-150.
The Response of Large Firms to Differenct Schemes of Time-of-Use Pricing When the Production Function is Quadratic, by Asher Tishler, 2, 69-90.
The Timing of Oil and Gas Leasing on the Outer Continental Shelf, by Marshall Rose and Donald Rosenthal, 2, 109, 132.
Traditional Energy Programs and the Theory of Open Access Forest Resources, by Harry R. Clarke and Ram M. Shrestha, 3, 139-158.
Traditional Energy Programs with an Open Access Forest Resources: Policy Implications, by Harry R. Clarke and Ram M. Shrestha, 4, 45-57.
Urbanization and Energy Use in Economic Development, by Donald W. Jones, 4, 29-43.
VIF Mortis EST: A Rejoinder to Singer, by David R. Henderson, 4, 153-154.
VIF Vivit: A Reply to Henderson, by S. Fred Singer, 4, 151-152.
